# Tensioners and idlers for commercial vehicles

Spann-/Umlenkrollen für Nutzfahrzeuge

Galets tendeurs et enrouleurs pour poids lourds

Tendicinghia e puleggie per veicoli commerciali

Tensores y poleas para vehículos industriales

# Improved design for critical applications

**Forged steel pulley:**  
Stronger pulley, minimises  
the risk of dislocation of  
the belt from the pulley

**Sealing caps:** Prevents  
contamination of the  
bearings and extends  
life of the tensioner

**Tandem 6303 bearings:**  
Withstands higher load capacity  
and ensures longer bearing life

**Patented round wire spring:**  
Better tensioner control and  
increased service life of the  
whole system

**22-25 mm pivot shaft:**  
Largest pivot shaft diameter  
on the truck market for a  
stable fit

**Patented nose ring technology:**  
Reduces system vibration, leading  
to smoother operation and  
extended life of the tensioner

**Labyrinth seal:** Prevents  
contamination of the spring  
and extends life of the tensioner

- Increased life span for the complete auxiliary drive system.
- The improved automatic tensioner lasts up to two times longer than competitors'.
- SKF covers the seven largest truck brands in Europe:  
DAF, Iveco, MAN, Mercedes-Benz, Renault, Scania and Volvo.
